

F R A N K G E T T Y

Frank Getty is being described as a powerful force among palette knife artists. His technique is bold and confident. Frank Getty is sure to ignite the attention of collectors with his familiar travels. Born in 1967 in Mecklenburg-Vorpommern in Germany, on the Baltic Sea, Frank Getty left school to become a decorator. He specialized in large-scale murals and commissioned paintings, but it wasn't until he spent time in New York and London that he chose to become a professional full-time artist. Frank still specializes in the palette knife work and impasto style he developed in his decorating days. His grand, dynamic, architectural cityscapes and harbor scenes are collected throughout Europe and the U.S.
